

Marko Pogacnik

SOUNDING THROUGH THE THROAT OF EUROPE

If the backbone of Europe is extending from Greece as its base chakra, to Island as its crown, so the elements of the throat chakra are positioned around the North Sea. More exactly it is composed of two watery channels, La Manche in the west and Skagerak-Kategat-Öresund in the east. The purpose of the workshop is to explore a portion of the second one and to experience its creative power – the throat chakra is a chakra of creation!

Through visiting some exceptional places in the west of Sweden the group will explore the depth of creative processes upon our planet and within us.

Another purpose of the Workshop is to get to know the so-called causal dimensions of the Earth and the Universe that Marko is exploring since two last years. The causal dimensions are responsible for preserving and balancing out of the Matrix of life. The question that the workshop and the accompanying theoretical part should answer is how the Matrix manifests in a landscape. Which beings and energy Systems are involved? What are the resonances upon our human body?

The knowledge of these sacred dimensions can help us to act creatively in this given moment of evolution, when the life bearing balances are collapsing.

27-31 July 2011 in west of Sweden

Alda, association for geomancy, is organizing.
The course will be in English.

We will stay at B&B near Gothenburg by the sea.
We'll start with supper at 7 pm the 27th of July.
